## ABOUT ME

I'm Karen Docherty. As a psychic medium and mentor I'm like a bridge between the visible and the invisible world. My mission is to use my ability to bring comfort, understanding and healing.

The loss of a loved one brings with it grief and leads us to ponder questions about the afterlife. It's something we all experience and endure at one time or another.

There are many unanswered questions but one thing is absolutely certain, our loved ones still care for and look after us as they continue their journey in the spirit world.

I am blessed to have the ability to connect and communicate with the world of Spirit, and to teach others to do the same. When we hear what they have to say, we can begin to live a life free of worry.

*They've been with me all my life.*

## MY JOURNEY

One of my earliest childhood memories is seeing spirit people, without actually realising they were spirit people. I never questioned it at the time, I just seemed to accept that they were there. My Grandmother, Elizabeth, often talked of the spirit world and she, too, was attuned to spirit in her own ways. I used to love listening to her stories about those who had crossed over. As I began to grow and develop my own connection with Spirit, she would often say 'Karen brings the spirit world with her'.

Every step I have taken in life led me to my mediumship. In previous jobs I was always frustrated that I couldn't do more to ease pain and suffering of others. I felt an insatiable desire to help others reach a place of happiness and comfort. That's when Spirit made themselves known and, over my 25-year journey, guided me to develop a deep connection.

My work has changed, but my purpose has remained the same: to serve and guide others with the word of Spirit. To ease pain and sadness with comfort and love. And to provide genuine knowledge and evidence of the existence of a world beyond our own.

## WHAT IS A PSYCHIC MEDIUM?

I'm a psychic medium. By using my higher senses I communicate with souls on both sides of the veil. I'm like a bridge between the physical and the non-physical world.

I feel immense joy in serving my clients and their loved ones on the other side. Letting those from the spirit world communicate through me with their physical family and friends creates healing of emotional pain for both parties, and everyone can continue better with their lives on their respective sides of the veil. With the emotional pain being gone, physical healing can come as a natural consequence for my clients.

Not only we humans grieve. The people in the spirit world are grieving, too, as they come to terms with now being with Spirit and not living in a body anymore. Not being able to physically be around their loved ones is often hard for the ones who passed, especially when they left a hurt relationship or there was no chance to say good-bye. By giving the departed ones a voice I create an opportunity for them to say what they need to say so that they can evolve and continue their journey in Spirit. We don't lose them when they move on, we're always deeply connected and bonded by love.

I also offer psychic readings, in which I tune into potential and possibilities for the client, has the purpose of empowering them to take full ownership of and responsibility for their lives. With the information I read for them and the guidance from Spirit, I support them in learning to trust their own intuition and in gaining clarity, so that they can make aligned decisions for themselves.

## LET'S CONNECT!

### Here are some ideas for interview questions:

What is mediumship and how did you learn that you're able to channel?

When and how did your psychic gifts come forth?

Often our loved ones on the other side communicate through signs. How do we recognise these signs?

What does it feel, sound and look like when you bring through messages from the other side?

You say mediumship is about healing. Can you explain more?

Is mediumship something that you can turn on and off and do you need to protect yourself from negative energies?

What do you love most and what is most challenging about your work?

Can we all learn to channel and connect to our loved ones who passed on?

Do we all have a spirit team and how can we know our guides?

When we receive intuitive messages - how do we know that we're not making them up?

When you receive information related to the future, does that mean our life paths are pre-determined?

*I'm like a bridge between the physical and the non-physical world.*
